AegisUSA is Nominated for the 2010 CSIA Apex Awards

AegisUSA's outstanding work and dedication in Identity Management Software and Implementation leads to recognition in the 10th annual CSIA Apex Awards.

Greenwood Village, CO- June 28, 2010- AegisUSA announced today it has been nominated for the 2010 Apex Awards, the prestigious technology awards recognizing outstanding accomplishments and leadership by Colorado's advanced technology companies and professionals. The winners will be announced on July 15, 2010 at the 10th annual Apex Awards.

Since the program's inception in 2000, CSIA's Apex Awards have expressed well-deserved recognition for the numerous technology company success stories and technical advancements produced in Colorado. Presented in six categories for companies and five categories for professionals, the awards recognize success, innovation, vision, leadership, excellent customer support and community contributions.

"As a company headquartered in Greenwood Village, Colorado, we are interested in the growth and advancement of technology innovation. Aegis offers revolutionary Identity Management Products and Services designed to address specific business objectives in a cost effective manner. We are honored to be recognized as a nominee for these prestigious awards that acknowledge technology excellence," stated Ralph Armijo, Aegis Business Group, CEO and President.

"Colorado has many success stories, and it's important to recognize the companies and professionals that drive the Colorado technology industry," said Su Hawk, president, CSIA. "Our Apex Awards provide the industry a once-a-year opportunity to celebrate their success, and generate awareness around these notable companies, which include AegisUSA."

About AegisUSA:

Founded in 2004, AegisUSA is a comprehensive solution provider focused on Identity and Access Management (IAM) products and services. AegisUSA offers a unique Identity Management Solution Continuum which provides clients with a spectrum of Identity Product offerings including Aegis Identity Appliances, Aegis Pre-Defined Identity Solutions, Custom Identity Solutions, Managed Delivery of Identity Infrastructure and, as a future offering, Identity as a Service. All of AegisUSA's Identity Solutions are based on proprietary Intellectual Property (IP), a set of methodologies developed and packaged to harness and encompass the company's vast IAM expertise. Leveraging AegisUSA's IP provides clients with an Identity Solution that will scale to meet current and future identity infrastructure requirements as business needs emerge and budget becomes available. Additionally, clients benefit from reduced deployment costs, reduced deployment time, reduced complexity, and reduced risk as a direct result of AegisUSA's methodology and solutions. For more information, please visit AegisUSA's website, www.aegisusa.com.

About CSIA:

CSIA is the leader in uniting and growing Colorado's information technology industry by providing advocacy, education, business connections, and information, while supporting economic development, unification of technology stakeholders, and larger recognition of the industry and the people involved to develop and promote Colorado's technology industry. CSIA also works nationally to ensure Colorado's technology voice is heard, through TECNA, a coalition of technology associations across the United States and Canada, as well as with TechAmerica, the national lobbying organization for federal issues. Since 1994, CSIA has been involved in legislative issues and public policy to represent the information technology industry in Colorado, and has provided a number of annual programs, events and connections to support business success. For more information on CSIA please call (303) 592-4070 or visit www.coloradotechnology.org
