**AegisUSA Introduces A Revolutionary Continuum of Identity and Access Management Solutions**

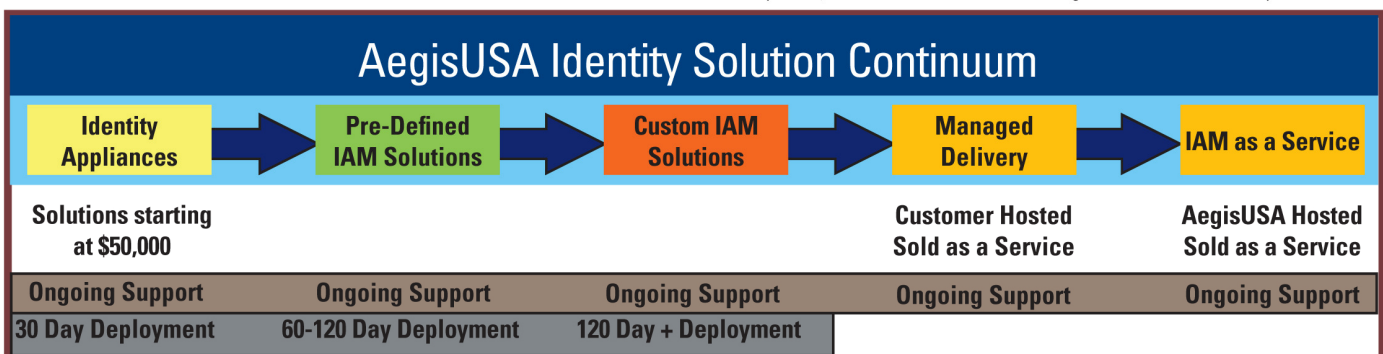

*AegisUSA Announces Identity Appliances, Point-Based Solutions Starting At \$50,000*

**Greenwood Village, CO — August 17, 2009** — AegisUSA today announced AegisUSA Identity Solution Continuum, a range of [Identity and Access Management \(IAM\) alternatives](#) from specific point solutions to [custom IAM solutions](#) based on industry-leading enterprise-class IAM software. The AegisUSA Identity Continuum expands the identity management solution options for organizations of any size to address specific Identity management challenges.

On the leading end of the AegisUSA Identity Continuum, AegisUSA has introduced [Appliance-based turnkey solutions](#) that deliver enterprise-level identity management functionality. Aegis Identity Appliances are functional IAM solutions configured to scale for future identity management growth and expansion. Preconfigured Appliances include [Password Management](#), [Single Sign-On \(SSO\)](#), [Federated Identity InCommon® Quickstart](#), and [Google Apps Provisioning](#), with additional point solutions planned in the near future. With a 30-day deployment timeframe and an entry level price starting at \$50,000, Aegis Identity Appliance Point Solutions are designed for organizations faced with shrinking IT budgets, and fast-approaching deadlines.

Across the continuum, AegisUSA provides Managed Delivery. This AegisUSA Identity Solution Continuum is backed by premier support with AegisUSA providing total Identity Infrastructure support at the client site. The customer is not required to invest in additional personnel or train existing resources. In the near future, AegisUSA will offer “Identity as a Service” solutions, rounding out the AegisUSA Identity Solution Continuum. AegisUSA also offers comprehensive IAM solution support across their entire Identity Solution Continuum. Aegis Identity Appliances are available directly from AegisUSA and through authorized resellers.

*(more)*

“AegisUSA’s revolutionary Identity Appliances give Avnet Reseller Partners the ability to offer entry point, scalable Identity Management solutions to their clients. By making these Identity Solutions available to Avnet’s 250-plus Reseller Partners, we have a mid market reach with a solution set that addresses users priorities while being sensitive to the current economic conditions. Avnet Technology Solutions is pleased to be fully engaged with the production of Aegis Identity Appliances,” said Chris Swahn, Vice President of Sales, Avnet Technology Solutions, Sun Solutions.

“AegisUSA understands that each customer’s IAM requirements are unique. By providing a range of solutions that are affordably priced and by offering simplified, specific solutions AegisUSA believes we can significantly expand the adoption of Identity Solutions,” stated Ralph Armijo, AegisUSA CEO. “This idea is reinforced since customers can acquire these IAM solutions through existing, trusted sources. Finally, since our solutions are based on enterprise-level software, all of our solutions are scalable to accommodate future business growth and change.”

### **About AegisUSA**

Founded in 2004, AegisUSA, a Sun Microsystems and Oracle partner, is a leading provider of Identity and Access Management (IAM) solutions with domain expertise as proven in their installed base of education, enterprise, health care (teaching hospitals), and government customers. AegisUSA has developed significant IAM domain knowledge and vertical market expertise with over 60 successful IAM implementations. AegisUSA designs, builds, implements and supports complete IAM solutions based on their world-class Technology-Enabled Approach. Additionally, AegisUSA employs consistent standards-based implementation methodologies allowing them to support the entire IAM implementation — not just the software. AegisUSA’s Technology Enabled Methodology delivers a significant reduction in implementation costs and in implementation timeframes compared to traditional implementations without AegisUSA.
